UNESCO IESALC's Annual Report 2024 now available

UNESCO IESALC is pleased to share their Annual Report 2024, which highlights a year of strategic action, knowledge generation and regional impact in the field of higher education. Through 25 flagship projects and a growing network of partners, UNESCO IESALC fostered more inclusive, quality and globally connected higher education systems in Latin America and the Caribbean.

Wrong battle? Universities must lead, not fight, AI integration

The wrong battle is being fought. Across lecture halls and headlines, artificial intelligence is being framed as the enemy of education – blamed for eroding critical thinking, enabling plagiarism, and displacing human teachers.

The forgotten lifeline: How music can help reimagine HE

In the aftermath of war, displacement and disaster, global humanitarian efforts often focus rightly on shelter, food, health and basic education. But one powerful tool for healing and rebuilding remains strikingly absent from most policy frameworks: music education.
