### **UNESCO IESALC Unveils Expanded Higher Education Policy Observatory for Stronger Policy Support**

In an era of rapid transformation in higher education, evidence-based policymaking is more important than ever. Yet across countries, information about how higher education systems are structured, financed, and evolving often remains fragmented or difficult to access.

### **Students, Schools Awarded for Excellence in TVET**

Students and educational institutions from across the island were recognised for excellence in Technical and Vocational Education and Training (TVET) at the 2025 National TVET Quality Awards ceremony.

### Reimagining Higher Education Through Pluralism: Insights from a Global Fireside Chat

As the world grows more interconnected and diverse in more complex ways, higher education finds itself at a crossroads. Tensions, inequalities, and divides echo through campuses just as they do across societies. UNESCO’s Futures of Education report (2021) urges a new social contract for education—one that centers pluralism as a prominent feature figure. But what exactly does pluralism mean in this context?
